

2.4GHz RF Stereo Wireless Headset

A wireless stereo headset with high-quality audio for your PC calling, music, and games. The advanced 2.4GHz technology allows multiple wireless headsets to operate at the same time while supporting both audio and voice streaming simultaneously

RF-2600

Operation Instructions

Please read carefully all safety instructions before using this device

Features

Rotate to Mute:

The microphone automatically mute when you rotate it up.

2.4GHz Wireless:

You can move free up to 15m away from your computer.

Simple Set up:

You can enjoy in seconds with the USB wireless transmitter without software installation.

Convenient Power Battery:

2 changeable AAA batteries and low power consumption to support the wireless headset.

Built-in headset controls

Instantly access volume controls directly on the headset.

Function Description

USB Transmitter (TX):

1. Pairing: Please press the pairing button with RX pairing button simultaneously when you first time use this device.
2. LED: Working indicator

Headphone Receiver (RX):

2. Vol+: to increase the volume
3. Vol-: to decrease the volume
4. Power: Long press the power button over 3 sec to activate the device.
5. Pairing: Please press the pairing button with TX pairing button simultaneously when you first time use this device.

Getting Start:

Set up:

1. Insert 2 AAA batteries to headset. Please make sure the battery directions correct.
2. Connect the USB transmitter on your PC/ laptop, and press the power button 3 sec on headset to activate the headset.
3. If it is your first time using this wireless headset, please operate the pairing process as following:
 - a. Simultaneously press the pairing key on TX\RX as rapid LED blink.
 - b. The LED will be slow blink while the pairing succeeded.
4. You can start enjoying the wireless headset now!!

Note:

- You can directly use the headset without pairing after the first pairing operation.
- 10-minute auto-off when wireless adapter not detected

TX LED Indicator Status

Event	LED Status	
	Tx (Green)	Rx (Red)
Power On	slow blink	slow blink
Pairing mode	Rapid blink with beep	Rapid blink
Wireless connected	Slow blink	Slow blink
Signal Transmitting	Solid Blink	Solid Blink

Control:

Rotate to Mute:

The microphone automatically mute when you rotate it up.

Notice: The headset has a wireless range of up to 15m. However, wireless performance may be affected by walls, metal items, and other wireless devices (e.g. WLAN...etc). When the headset is moved to the limit of wireless range, audio may become distorted and eventually cut out. Moving closer to the wireless adapter will restore clear audio.

Specifications

RF Specifications

1. Receive Frequency Range: 2.4GHz~2.4835GHz Unlicensed ISM Band.
2. Spread Spectrum: Frequency Hopping Spread Spectrum (FHSS)
3. Radiated Output Power: 0-4dB.
4. Modulation method: GFSK
5. Transmission Range: Up to 15M.

Speaker Spec:

1. Driver Unit: 40mm.
2. Frequency Response: 20Hz~20kHz.
3. Impedance: 32 Ω .
4. Sensitivity: 115 \pm 4dB.
5. Max. input: 100mW.
6. Total Harmonic Distortion (T.H.D): Less than 2%.

Microphone Spec:

1. Directivity: Omni.
2. Impedance: 2.2k Ω .
3. Frequency: 100~10KHz.
4. Sensitivity: -54 \pm 3dB.

Safety Notice

CAUTION

**RISK OF ELECTRIC SHOCK
DO NOT OPEN**

TO PREVENT THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE SPEAKER'S COVER. NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

IMPORTANT SAFETY INSTRUCTIONS

READ INSTRUCTIONS - All safety and operating instructions should be read before this amplified speaker system is operated.

RETAIN INSTRUCTIONS - The safety and operation instructions should be retained for future reference.

FOLLOW INSTRUCTIONS - All operating and using instructions should be followed.

HEED WARNING - All warnings on the speakers and in the operating instructions should be adhered to.

VENTILATION - Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the speakers and to prevent it from overheating. These slots must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surfaces. The unit should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided.

HEAT - This unit should be situated away from heat sources such as radiators, heat registers, stoves or other units (including amplifiers) that produce heat.

POWER SOURCES - The unit should be connected to a power supply only of the type described in the operating instructions or marked on the unit.

POLARIZATION - The unit may be equipped with a polarized alternating current line plug (a plug having one blade wider than the other). This is a safety feature. Do not defeat the safety purpose of the polarize plug.

CLEANING - Unplug the unit from the wall outlet or other power sources before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

WATER AND MOISTURE - The unit should not be used near water - for example, near a bathtub, washbowl, kitchen sink, laundry tub; in a wet basement, or near a swimming pool; and the like.

POWER CORD PROTECTION - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plug, convenience receptacles, and the point where they exit from the unit.

NON-USE PERIODS - The power cord of the unit should be unplugged from the outlet when left unused for a long period of time.

OBJECTS OF LIQUID ENTRY - Care should be taken so the objects do not fall and liquids are not spilled on the unit.

DAMAGE REQUIRING SERVICE - The unit should be serviced by qualified service personnel when:

- a) The power supply cord or the plug has been damaged; or
- b) Objects have fallen, or liquid has been spilled into the unit; or
- c) If the unit has been exposed to rain or water; or
- d) If the unit does not appear to operate normally nor exhibits a marked change in performance; or
- e) If the unit has been dropped, or the enclosure is damaged.

CARTS AND STANDS - The unit should be used only with a cart or stand that is recommended by the manufacturer.

Federal Communications Commission (FCC) Statement

- 15.21

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

- 15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

Caution: Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
