This system uses the latest **Bluetooth** technology, which gives you complete freedom of movement while enjoying your own favorite music. No more inconvenience from cables or headphone wires! To ensure you to get the best performance of stereo sound system.

Safety Information

Federal Communications Commission (FCC) Statement

(3.21) You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

(3.1055) This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or wireless reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Caution: Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Specifications

Compatibility

This Bluetooth Headset is compatible with the cellular phones or other Bluetooth enabled devices that support Bluetooth Headset, Handsfree, AVRCP and A2DP profiles.

Working Range

This Bluetooth Headset conforms to Bluetooth class 2 for a range of 30 feet (9M) in an open space.

Battery

1. Power Supply: Li Polymer Recharge Battery (300mAh 3.6V), one year guarantee.
2. Working Time: 8 Hour
3. Charge Time: 4 Hour
4. Charge Current: $\leq 100\text{mA}$
5. Stand-By: Approx. 250 Hour

Speaker

Dimensions: 36mm x 36mm (H)

Loading Impedance: $\leq 1\Omega$

Out Sound Pressure Level: 100dB-140dB

Frequency Response: 200 - 18K Hz

Microphone

Sensitivity: $\leq 100\text{dB}$

Output Impedance: $\leq 2\text{K}\Omega$

Directivity: Omni-directional

Frequency Range: 100 - 10K Hz
